## **CONDITIONS AND STIPULATIONS For commercial use of BLM maintained facilities**

In addition to the terms included on the back of your Special Recreation Application and Permit (SRP) (Form 2930-1), the following special stipulations are a part of this permit and are applicable to BLM-administered lands and water, including State and Native Selected areas. Failure to comply with any of these conditions or stipulations knowingly or willfully is a violation of 43 CFR 2932.57, punishable by up to a \$1,000 fine and/or a year in jail.

### **A. Campground Related:**

1. Permittee must observe all campground regulations posted in the Sourdough, Paxson, Tangles and Brushkana Campgrounds as they commence and/or conclude authorized activities. Permittees may not use campgrounds as a location from which to operate a base camp or office.
2. Registration is required at the Campground Registration stands for each trip (or each day, if making multiple trips per day using your companies or organizations business name. Registration records will be reviewed against post use reports and on site monitoring, and instances of failure to register will result in documentation of failure to comply with permit stipulations.
3. Site fees are required at each applicable facility in addition to standard Special Recreation Permit fee requirements
4. Abide by the Leave No Trace practice that is described in the educational information that has been provided to you. Permittees are encouraged to share this information with clients.
5. Camping for a period longer than fourteen (14) consecutive days within the campground without written authorization of the Field Manager, Glennallen Field Office, BLM is prohibited.
6. Leaving property unattended for more than 48 hours without written authorization of the Field Manager, Glennallen Field Office, BLM is prohibited.
7. Group sizes larger than twelve (12) people without written permission, in the form of a group letter of agreement, issued by the Glennallen Field Office, BLM are prohibited.
8. Discharging any type of fireworks is prohibited.
9. Discharging a firearm is prohibited.
10. Discharging a firearm is also prohibited at any time within 150 yards of a residence, building, developed or undeveloped recreation site, occupied area, and across or on any trail or body of water, whereby any person or property is exposed to injury or damage as a result of such

discharge. Firearms may be used for hunting, personal protection against wildlife, and emergency situations only.

11. Possession and/or consumption of alcohol by anyone less than 21 years of age is prohibited.
12. Failing to exhibit required permits and identification when requested by a BLM Authorized Officer or representative is prohibited.
13. Selling or offering for sale any merchandise or service or conducting any kind of business enterprise without the written authorization of the Field Manager, Glennallen Field Office, BLM is prohibited.
14. Violating the terms of any written permission or permit issued by the BLM is prohibited.
15. Causing a fire, other than a campfire or signal fire, to be ignited by any source is prohibited.
16. Leaving a fire without extinguishing it, except to report if it has spread beyond control, is prohibited.
17. Failing to obey fire closure orders issued by the BLM is prohibited.
18. Except as herein authorized, damaging, disturbing, or removing any timber or other vegetation is prohibited. The use of reasonable amounts of dead, down, or detached timber for campfires in the river corridor is permitted.
19. Defacing, disturbing, or removing any natural feature, vegetation, timber, rocks, or property of the United States is prohibited.
20. Digging, scraping, disturbing, or removing any natural land features for the purpose of mineral prospecting or mining is prohibited.
21. Equipment may not be left unattended at a site in order to “save” a spot, nor cached for convenience on subsequent trips. Materials and supplies may not be cached within the area during non-use periods without proper authorization from the Bureau of Land Management. The permittee cannot, unless specifically authorized, erect, construct, or place any building, structure, or other fixture on public lands, nor make use of existing structures or foundations nor establish or improve landing areas.
22. Disturbance of any man-made structures or remains of structures is prohibited, as is any disturbance of any structures or remains. There shall be no additional ground disturbance. There shall be no disturbance of archaeological sites, and no collection of artifacts whatsoever. Collection of vertebrate fossils, including mammoth and mastodon bones, tusks, etc., is prohibited. Evidence of any such resources encountered by the permittee must be reported to the Glennallen Field Office Cultural Heritage staff.
23. Use existing designated campsites and fire rings to limit camping impacts to. Camps and activities associated with the proposed action should be located and conducted so as to minimize disturbance to riparian vegetation and erosion to streambanks and lakeshore. Where possible the applicant should select and establish camps in areas so as to minimize disturbance to riparian vegetation and avoid trampling of riparian vegetation and breakdown of stream banks and lakeshore (e.g. on gravel bars). Do not leave trash in fire rings. All trash shall be packed out on each trip, including items not completely burned in fire rings (melted plastic, charred aluminum,

etc.). Keep a clean campsite and store food and trash in such a manner as to avoid attracting bears and other wildlife. Burying any trash is prohibited.

24. Gray water shall be disposed of 200 feet from water, camps and trails. Strain food particles to pack out.
25. Cutting of standing (dead or live) trees is prohibited.
26. Feeding of wildlife, or in anyway intentionally harassing or disturbing wildlife, is prohibited.
27. Intentional harassment or disturbance of birds (individually, their nests, eggs or seasonal breeding, nesting, roosting, brooding or molting habitat) is prohibited. Specifically all raptors (including bald eagles), waterfowl (including trumpeter swans and harlequin ducks), and other smaller birds (including Arctic terns) are protected under federal law.
28. Any spill of petroleum products shall be reported and cleaned up in accordance with the rules and regulations established by the Alaska Department of Environmental Conservation and the Environmental Protection Agency. BLM will recover all costs incurred in reporting the spill, rehabilitation, and clean up, with said costs the responsibility of the party responsible for the spill.
29. Clearly visible identification of all commercial vehicles, using your operation's name, is requested.
30. Clients that plan on fishing are required to have a valid Alaska fishing license and follow State fishing regulations. In addition, if fish are not to be retained, common catch and release practices should be followed in order to minimize the stress on the fish and increase their chance of survival.

## **B. Use Limitations**

1. This permit shall be terminated or adjusted accordingly, two days prior to approval of conveyance of State or Native selected lands which affect your operating area.
2. Commercial use of any BLM public shelter cabin is prohibited without prior authorization.
3. Only the use of dead trees for campfires is permitted. This permit does not authorize the cutting of live trees. Permittee shall make their employees and clients aware of responsible low-impact practices and techniques, as outlined in the enclosed Alaska Wildlands Leave No Trace Skills and Ethics booklet.
4. Within 14 days from the completion of the last permitted event, all trash shall be hauled out by the permittee and disposed of in a proper landfill, dumpster, or trashcan. Cans, glass, plastics, batteries and other non-combustible/non-degradable materials shall not be burned. Do not bury refuse. Gray water and human waste shall be disposed of at least 100 feet beyond the ordinary high water mark of any water body. Bury all gray water and human waste. When possible, we encourage the use of portable toilet systems along rivers (e.g. porta-potties).

## **C. Vehicle Use**

1. The permit holder is required to maintain a safe operating speed for client safety and other recreational users as conditions dictate.
2. Permit holder and clients must keep ATV's on existing trail surfaces at all times
3. No vehicle traffic is allowed off established trails. Pioneering new trails with any motorized vehicle, and the use of motorized vehicles exceeding 1,500 pounds gross vehicle weight rating (GVWR) on established trails is prohibited without prior authorization from the authorized officer (AO). GVWR includes the weight of the vehicle itself plus fuel, driver, passenger, and manufacture's specified load limits. Permittee shall make every reasonable effort to avoid streams, lake shores, meadows, muddy trails, steep hillsides, and observed wildlife.
4. All-terrain vehicles (ATVs) should be thoroughly cleaned prior to accessing BLM managed lands. Washing and/or brushing ATVs to remove material that can contain weed seeds is a good way to insure equipment that is being driven across or onto BLM lands are weed and weed seed free. High pressure washing is recommended to treat the insides of wheel wells, undercarriages, inside belly plates, wheels, etc.

**D. Fuel and Waste Management**

1. Waste water, non-hazardous solid waste, hazardous substance storage containers, and spills shall be managed in accordance with Title 18 Alaska Administration Code.
2. To avoid conflicts with bears, sealed bear proof containers are suggested for food and unburned waste until such waste can be removed from all camps. Meat and animal parts shall be removed from all camps as soon as possible to avoid attracting bears.

**E. Miscellaneous**

1. Requests for assigned sites must be submitted in writing.
2. A performance evaluation shall be completed by the BLM for all permittees. The purpose of a performance evaluation is to evaluate a permittee's performance and compliance with the terms and stipulations of the permit. The permittee will be given written notice of results of annual performance evaluations after the conclusion of the permittee's operating season, which will include the level of performance and the status of corrections that may be required to retain the permit.

I declare I have read and understand all of the stipulations associated with this Special Recreation Permit. I acknowledge that as signee of the permit and these stipulations that I am fully responsible for all of the mitigation measures and compliance with stated permit stipulations and that non-compliance with any permit stipulations will be grounds for denial of future permits, and/or cancellation, and/or prosecution of applicable Federal, State and/or Local laws.
